

# RAZOR Floor Lamp by Dennis Abalos

The RAZOR Floor Lamp is inspired by modern home interiors and the use of leading LED lighting technology.

The design intent was to develop a clean, slim and sharp looking floor lamp combined with futuristic contemporary style to create mood lighting and provide ambient light to any interior space.

Being of slim design, the RAZOR Floor Lamp is great for rooms with limited amounts of space. It's suitable for enhancing living rooms, dining rooms, bedrooms or other indoor surroundings. Its presence in any space makes it an illuminating talking point wherever it goes.

Direct and indirect lighting is provided by the RAZOR's sleek metal body and the clever positioning of the LED lights.

A strip of LED lighting surround the opening at the centre of the body which allows for direct illumination from the internal mirror, and the LED's around the perimeter of the body provide indirect ambient lighting.

It is made from stainless steel sheet and features High Output L.E.D Strip Lighting. It hides a 12VDC Weatherproof 100 Watt LED Driver at the base of the lamp that can withstand rugged everyday use.

The RAZOR Floor Lamp is not only stylish, but also designed with the eco-friendly consumer in mind. Due to the use of LED's, which burn cool, the RAZOR Floor Lamp has a low power consumption. It is also maintenance free, with LED's that last up to 100 thousand hours. The metal body and base materials are also recyclable.

Dimensions: 1500 x 240 x 260 – 26mm Thin Body

Finishes: All Interior Faces of the Razor Floor Lamp are mirror polished finished. Exterior Faces of the Razor Floor Lamp can come as brushed steel finish OR powder coated gloss to a wide range of colors.

*The RAZOR Floor Lamp was inspired by LED strip lighting technology and the need for more eco-friendly lighting solutions. The minimalist design combined with its sleek and streamline profile makes the RAZOR a versatile floor lamp for any interior space.*

*Designed with the eco-friendly consumer in mind, the RAZOR Floor Lamp has low power consumption and is maintenance free with LED's that last up to 100 thousand hours.*

*Made from stainless steel sheet, the metal frame and body make them recyclable.*
