

Vick & Vicky Wall Shelves

By Dennis Abalos

“engage with an old idea in a new way”

Combining current technology (Sheet Metal Bending and Laser Cutting) with Victorian Style Ornament from the past, the shelves were conceived.

The Vick and Vicky wall shelves evoke tradition and the past through their decoration to make your home an elegant show palace!

The shelves were designed for mass production, each made from a single sheet of stainless steel bent to a simple design and clever shape and structure.

Vick is the long wall shelf and Vicky being the short wall shelf, are the perfect couple to add that elegant touch and decorative pattern on your living room or bedroom wall!

Target Market to be home owners, decorators, designers and architects for the home or social spaces, such as cafes, bars and restaurants.

Vick Dimensions: 800mm Length, 300 mm Height, 250mm Depth
